Euro American Colloquia on Citizenship European Session 2009

The "Euro-American Colloquia on Citizenship" was instituted by FONDACA - Active Citizenship Foundation in 2003 to help overcome the "transatlantic divide" about citizenship between Europe and United States. The program consists in promoting the exchange of knowledge and information on the experience on state of the two citizenships, by involving scholars and actors from the public arena (political, institutional, private, social and civic). The choice of the theme *citizenship* comes from the desire to focus the debate on the differences and similarities of one of the key elements of American and European identity.
